## FALLS IN FRONT OF MOVING CAR

Charles Adams, Reading Railroad  
Brakeman, Meets with Horrible  
Accident in Town. Car Runs over  
Both Legs. Probably Fatal.

Charles Adams, a brakeman on the regular Reading freight arriving here about 10:30 was run over by a car near the local station shortly after noon today sustaining injuries which will probably prove fatal. The car ran over both legs likely necessitating the amputation of both and he also sustained internal injuries. Mr. Adams was formerly a resident of Aspers.

He was standing on the platform on top of a freight car being shifted onto the siding north of the station. Grasping the brake wheel, he used all his strength to turn it and leaned back to give more of a pull. The shaft failed to stand the strain and broke off throwing the man immediately in front of the rapidly moving car. It ran over both lower limbs and then dragged him some little distance.

A number of people witnessed the accident and the man, suffering intensely and screaming so that he could be heard for several squares, was carried into the passenger station where he was given attention. He was later taken to the Harrisburg Hospital on a special train accompanied by Dr. J. R. Dickson.

Mr. Adams has been in the employ of the Reading for some years. Several years ago he was shifted to Harrisburg but spent much time with his family at Aspers. A few weeks ago he moved his family to Harrisburg and rented his home at Aspers. He has a wife, who was Miss Grace Snyder, daughter of Jacob Snyder of Gardner, and two children. He is about thirty five years of age.

CATHOLIC

## HOME TALENT SHOW PLEASD

The King's Carnival by Local Talent  
Pleases Large Audience in Wizard Theatre. Many Novelties. Pretty Choruses.

Surrounded by their court the king and queen reigned on their throne and were amused and entertained by a carnival of unusual beauty and merit. So enthused did the reigning monarch and his queen become that they finally joined in the merriment and were themselves a part of the latter portion of the carnival. All this occurred on Friday evening at the Wizard Theatre when, in the presence of a large audience, Gettysburg's home talent players produced "The King's Carnival" for the benefit of the local Y. M. C. A.

About one hundred and fifty took part and the evening was as enjoyable as it was varied. One pretty stage effect after another was produced. Handsome and unusual costumes, good singing and well drilled choruses were all in evidence and "The King's Carnival" was a credit to all connected with it.

Following the opening chorus, Miss Lollie Spangler gave two attractive specialties in costume, the one a Dutch song and the other "The Yama Yama Man." Seven little girls with slates and pencils sang "Put Down Six and Carry Two" and little Dorothy and Junior Broom made a big hit with "Take Your Hands Away." A large number of the "troupe" were on the stage during the first part and sang the choruses, the curtain dropping on "My Dusky Rose."

Part two opened with two well drilled scenes by the youngsters, the "Tot's Reception and the Rose scene. In attractive costumes a large gypsy chorus with Miss Freda Buehler as soloist made one of the many pretty stage pictures, and the second part closed with a solo by the court jester, Walter Berger.

Another drill by the children, this time thirty six little girls in red and white followed the rise of the curtain. Edna Zinzend and Harry Walters singing at its close "I Want Some One to Flirt with Me." One of the most decided hits of the evening was "Guddle up a Little Closer" with Mr. Reed, of college as soloist, and a very well trained chorus. Miss Helen Rupp sang "Silver Threads among the Gold" and the drill of the seasons, with a solo by Miss Gladys Raymond, received appreciative applause. Another of the popular choruses was "I'm Looking for a Sweetheart." Miss Hazel Thorn sang the solo and Edgar Miller responded from the audience, a pretty chorus accompanying. It was one of the best numbers of the evening. Miss Grace Rudisill led an Indian chorus of ten girls who sang "Moon Bird" and the best received number of the entertainment followed. It was "Ching-a-Ling" a Chinese song by Roy E. Zinn as mandarin with a large chorus in kimono and pajamas.

Harry Walters gave a very good Rube specialty and the Swing Song followed a short intermission. Six swings prettily decorated in pink and white with small electric light bulbs were suspended from the stage and held six girls. They were swung by an equal number of boys as Miss Ruth Clutz sang the solo and all sang the chorus. The College Chorus with Miss Freda Buehler and Miss Pauline Rudisill as soloists concluded the evening.

The Y. M. C. A. cleared about \$65.00 on the attraction.

### PRESENTED WITH CUPS

On Friday the college relay team which competed at Philadelphia some weeks ago were presented with pretty silver cups for having taken second place in their event. It will be recalled that a team from Brooklyn took second place but a protest on the charge of professionalism was entered and this was sustained, Gettysburg being awarded their place. The team was composed of Leathers, Hufford, Shaeffer and Pee. The presentation was made at Chapel by Rev. Prof. A. R. Wentz.

### MR. MINTER'S NUNERAL

The funeral of David G. Minter which was held at Arendtsville on Friday was very largely attended, many people being present from a distance. The pall bearers were Jacob Haverstick, John B. Haverstick, Rufus Diehl, Robert B. Myers, Calvin Thomas and Walter Teot. Four of these were his tenant farmers, one his tenant miller and the other his carpenter and builder.

## FARMERS BUSY FIGHTING PESTS

Potato Bugs Surpass All Records for Several Years. Cut Worms Do Great Damage. Ants Eat up Corn Field. All Busy

Adams County farmers say that they are more bothered by various kinds of pests than for many years. People who have gardens in town and in the county complain of the same trouble and the life of the agriculturist is principally a struggle to kill the annoying insects and worms.

Potato bugs—the hard shell or Colorado variety—are a great deal more plentiful than usual. One farmer in talking of the matter this morning said "On one small stalk about an inch out the ground I picked exactly eight bugs. My entire field is infested with the insects and untold damage is being done."

A new enemy to the farmer has become especially active this year in the shape of the ant. A gentleman owning a farm near New Chester says that he was compelled to plant over an eighteen acre field of corn because the ants had done so much damage that no crop worth speaking of would have been grown if the first planting had been allowed to remain.

The cut worm is doing great damage to gardens and all kinds of garden truck are being ruined by the busy worms. One man near Mount Alto gathered a quart of the destroyers from his garden. Flowers are also being killed by them.

Other pests are so numerous that the trade in spray and wash materials has increased wonderfully. The ravages of the insects have been somewhat checked by these but the loss will mount far up nevertheless.

### WASHINGTON GETTYSBURG R. R.

The Baltimore Evening Sun contains the following relative to the long talked of Washington-Gettysburg Railroad project.

"Apparently very little seems to be generally known in this state concerning the projected railroad from Washington to Gettysburg, Pa., by way of Westminster."

"It is erroneously supposed by many that it is to be a trolley line, whereas it is to be a steam railroad. The route surveyed and for which rights of way have been generally granted is from Washington to Hyattsville, and Howard counties in as nearly as possible a direct course, toward Mount Airy on the border between Carroll and Frederick counties. Near Ridgeville, a mile south of Mount Airy, it will enter and run for a short distance through the eastern edge of Frederick county and cross the Baltimore and Ohio railroad, both at that point and at Mount Airy. From Mount Airy it will run through Carroll county to Westminster, and from that point north through the county to the Pennsylvania line, and thence through Adams county, Pennsylvania, crossing the Pennsylvania railroad west of Littlestown on to Gettysburg, altogether a distance of about 72 miles.

"The only open opposition to the construction of the road has been encountered at Hyattsville, where resistance is being made to a grade crossing. There is a suspicion in some quarters that there may be secret opposition in other directions, but about this nothing definite or certain is known.

"It is understood that the road will be a first class, single track line in the beginning, with the addition of such betterments as may be required later on. No definite time for its completion has been absolutely determined, though rumor places it two years hence."

## BUCKNELL 10 GETTYSBURG 4

Local Collegians Lose through Poor  
Playing and Heavy Hitting of  
Visitors. Have Fruitless Rally in  
Final Inning.

Gettysburg College base ball team, through poor field work and stupid base running lost to Bucknell on Nixon Field Friday afternoon by a score of ten to four. Coupled with Gettysburg's weakness was Bucknell's strong work at the bat and they had little difficulty pounding the ball to all corners.

Empfield was started for Gettysburg but when seven runs were secured off his delivery in the third he was retired in favor of Beaver.

Bucknell found him at once but the team got awake when the bases were full with none out and by shutting off two at home and a difficult foul catch by Gilman prevented a score. Beaver was effective after that for several innings and only three runs were secured off his delivery.

Gettysburg secured four runs in the ninth when they succeeded in hitting safely and soon retired two pitchers but Bucknell's lead was too big to overcome. The locals had hit hard throughout the game but the majority were easy outs for the fielders.

Mrs. Siegrist, of Lebanon, is spending some time at the home of Mrs. M. Valentine on Springs avenue.

William Aughinbaugh, of Harrisburg, is visiting for several days at his home in this place.

Ervin Bucher, a student at the normal school at Shippensburg, is at his home near town for several days.

Prof. and Mrs. P. S. Miller, of Glenville, are spending some time at the home of Mrs. Miller's parents, Mr. and Mrs. Charles H. Wilson, on East Middle street.

Mrs. Jacob F. Thomas has returned home from Harrisburg where she had been visiting for several weeks.

Mr. and Mrs. Gnyon Kitzmiller and Mrs. Sachs, of Baltimore, are spending several days at the home of Mr. and Mrs. Jacob Kitzmiller on West Middle street.

Rev. Dr. T. J. Barkley has returned to his home on Carlisle street after attending General Synod at Canton, Ohio, for a week.

### GEORGE D. ALLISON

George D. Allison died at his home in Butler township on Wednesday, May 24, from pneumonia, aged 21 years, 1 month and 25 days.

Those who survive are his mother, Mrs. John Allison, four brothers and five sisters, William P., of Biglerville; Samuel E., of Butler township; Solomon L., of Fairfield; James M., at home; Mrs. Herbert Deekert, of Butler township; Mrs. Milton Lady, of Franklin township; Mrs. Harry Beatty and Mrs. William McGleef, of Gettysburg; and Lillie at home.

The funeral was held Friday with interment at Flohr's Church.

### ENGINE OFF TRACK

A large 600 engine on a heavy Port Covington freight was derailed near the Gettysburg Roller Mill siding this morning and narrowly escaped plunging into the structure. The engine was thrown off near the water tank by an accumulation of ashes on the track and traveled on the ties for some distance, a heavy coal train following but holding to the rails. When the switch at the mill was struck the engine turned in there and all the wheels remaining on the track were pulled off. Fortunately the train stopped before any further damage was done.

Representative James Cole, of this district, is not mentioned on the list of voters, for or against, the Kline liquor bill as given in Thursday's issue of the Philadelphia North American and Mr. Cole desires it to be known that he is on the House Journal record as voting against this measure.

## THREE MILLION DOLLAR BLAZE

Coney Island Dreamland Burns. Six  
Babies Meet Death. Animals in  
Menagerie Killed to Protect  
Crowd of Sightseers.

(By Telegraph)

New York, May 27.—Coney Island's Dreamland is this afternoon a mass of ruins as the result of a three million dollar fire which broke out at two o'clock this morning. It was the worst fire in the history of the section and threatened for a time the destruction of Coney Island.

Five alarms were turned in and the blaze made such a glare that people could read a newspaper six miles away. Captain Ferrar's animal show, the second largest in the country, was destroyed and the animals had to be shot to prevent their escaping into the large crowd which gathered to see the conflagration.

Six incubator babies perished but there are no other known fatalities, and no one is reported to have been injured.

The blaze which started at two o'clock is thought to have been caused by defective insulation. It spread rapidly and at three o'clock the big tower fell. One alarm after another was turned in until a large force was at work and at eight o'clock this morning the fire was announced under control.

### M'SHERRYSTOWN

McSherrystown, May 27.—V. H. Lilly, Esq., the local insurance agent, has adjusted the losses sustained by Robert Sheeringer and Mrs. Anna Melhorn, by lightning, during the storm of last week; the former for the loss of two steers killed in a field on the Conewago Chapel farm and the latter for damage to the dwelling house on her farm—the old Barnitz farm, along the Carlisle pike, near Hanover.

Lewis Klunk, who has been ill, is improving.

Dr. George L. Rice, C. D. Smith and F. V. Topper, who were appointed appraisers for C. E. Mattingly and Co. by J. Donald Swope, referee in bankruptcy, started upon their duties Friday.

J. Burton McKinney, Edgar Neiderherr, Andrew Keffer, Jr., Maurice Smith, John Weaver, Harry Staub, Harry Martin, Jr., Grover McKinney and Leo Weaver attended the lecture of Eugene Debs, the Socialist leader, at York on Wednesday evening.

Mr. and Mrs. Charles Krichen and daughter, of Baltimore, are visiting his parents, Postmaster John H. Krichen and wife.

The McSherrystown High School commencement exercises were held Friday evening in Union Opera House about 100 potted plants, together with wild honeysuckles and fleur-de-lis, the class flower, secured by the graduates, were banded around the front of the stage. The class colors were light blue and gold. With class pennants predominant, the whole presented a very pretty appearance, for which Misses Corrigan and Neely, the teachers, deserve special credit. Hon. George J. Benner, of Gettysburg, was the orator on the occasion.

### WILSON SEES GOOD CROPS

"For this season of the year the general crop prospect is good," said Secretary of Agriculture Wilson. "There is no reason from present indications to fear crop failure and higher prices of food products in consequence. We have had long, dry periods before this year, with no failure of crops."

"It is too early to tell how large the crops will be, but there is no cause for alarm. In some localities the crops have been damaged by the hot weather, but throughout the country the conditions are good."

### POSTMISTRESS RESIGNS

Edna V. Plank has handed in her resignation as postmistress at Arendtsville, to take effect July 1st, 1911. A United States Civil Service examination will be held in Biglerville on Saturday, June 3d, for the position of Fourth Class Postmaster at Arendtsville where applicants wishing to take the examination can get the necessary blanks.

### "Supper Ready"

When you get back to camp, tired and hungry, you do not want to spend the evening getting supper ready. You want a stove you can start up in a minute—that will cook quickly and well.

For camp, houseboat or bungalow, a New Perfection Oil Cook-stove is the ideal cooking device. It is ready for use in a moment. It saves all the trouble of cutting wood and getting in coal. It does not overheat or make dirt in a kitchen; there are no ashes nor smoke. It requires less attention and cooks better than any other range.

**New Perfection**  
Oil Cook-stove

Made with 1, 2 and 3 burners, with long, turquoise blue enameled chimneys. Handsomely finished throughout. The 2- and 3-burner stoves can be had with or without a cabinet top, which is fitted with drop shelves, towel racks, etc. Dealers everywhere; or write for descriptive circular to the nearest agency of The Atlantic Refining Company (Incorporated).

Make a noise like a Chautauqua, learn how by buying a course ticket.

If every body will help, Gettysburg can be made the great Chautauqua center of the east, not only for this year but for every year.

The object of the Chautauqua is to help business along the line of tourist travel and to provide the means to advertise the attractions of Gettysburg to the American people.

## MADERO NOW SEEKS PEACE

Resigns as Provisional President of Mexico.

### ISSUES A STATEMENT

Insurrecto Leader Expects to Be a Candidate For President to Succeed Diaz.

El Paso, Tex., May 27.—True to his word, Francisco I. Madero, insurrecto president of Mexico, resigned, following the resignation of President Diaz, of Mexico.

He issued a manifesto renouncing the title of president of the provisional government and explaining the peace terms reached between himself and the federalists. He expresses the utmost confidence in the good faith of de la Barra while he holds the office of temporary president of Mexico, and says the insurrecto troops are at the disposal of de la Barra in restoring peace in Mexico.

Madero explains that he did not hold out for all that he and his party declared for at San Luis Potosi last November, when they demanded that all governors must be swept aside, because he had a chance to get peace by accepting one more than half the governorships, and he considered this agreeable, especially since the resignations of Diaz and Corral were also promised and new elections are promised.

Madero was asked if he would announce his candidacy for the presidency of Mexico, and he said he would not; that such a thing was not considered proper in his country, but his friends would advance his name at the proper time, he was certain.

Invited to come to El Paso and hold a public reception, that the people of the city might meet him, Madero said he would come next Monday, inasmuch as he was now a private citizen.

### DIAZ STARTS FOR EUROPE

Deposed President of Mexico Will End Days in Spain.

Mexico City, Mex., May 27.—General Porfirio Diaz, who resigned the presidency of Mexico, left for Vera Cruz to sail at once for Europe.

The ex-president's party included his wife and children, a number of men prominent in the fallen administration and officials of the Mexican National railway.

The railway company provided a special train for the general and his party. General Diaz, his wife and family, and probably some of the retiring officials who accompanied him, will board the steamship Ypiranga and sail immediately for Havana. At Havana it is announced the party will take passage and sail for Santander, Spain, where General Diaz will spend the rest of his days.

### THREE MINERS KILLED

Were Crushed by Fall of Coal in Collieries Near Shenandoah.

Shenandoah, Pa., May 27.—Three prominent miners met death in the mines and a fourth had a thrilling and miraculous escape.

William Miller, sixty-five years old, a contract miner, and Daniel Blasco, his partner, aged twenty-nine years, were working in the Little Buck vein at the Cambridge Coal company's colliery, when a heavy fall of coal occurred, entombing both victims. As no person was near, it was some time before their fate was known.

Shortly after starting to work at the Girard Mammoth colliery, John Stovanski, thirty-six years old, and Patrick Monaghan, forty-two years of age, his partner, were entombed in their breast in a similar manner. Stovanski was taken out shortly after, badly injured, but Monaghan's mangled body was not recovered for eight hours.

### GORE OUT FOR WILSON

Senator Indorses Governor For Democratic Nomination For President.

Washington, May 27.—Senator Gore, of Oklahoma, came out in a letter strongly indorsing Governor Woodrow Wilson for the Democratic nomination for president.

Wilson's friends look on the Gore letter as added evidence that the progressive Democrats of the south and west are rapidly turning to the governor. Gore is recognized as one of the progressive wing of the senate Democrats.

### Police Chief Gets Ten Years.

New Orleans, May 27.—Edward S. Whitaker, formerly chief of the New Orleans police department, who was convicted of crimes involving young girls, was sentenced to serve ten years in the state penitentiary.

### Ireland's Population Shrinks.

London, May 27.—Ireland has a population of 4,381,951, according to the census returns. This is a decrease of 76,824 since the last census was taken ten years ago.

### Senator Elkin's Estate.

Elkins, W. Va., May 27.—The report of appraisers of the estate of Senator S. B. Elkins shows that the senator left \$4,025,109.04.

## CAMBRIA CO. MEETS CUT ON STEEL BARS

No Change in Prices of Other Products.

New York, May 27.—Price cutting of steel products, following the lead of the Republic Iron and Steel company, was continued, when the Illinois Steel company reduced its stock prices on steel bars 10 cents per 100 pounds, to take effect immediately.

This reduction includes, besides plain bars, channels, tees, angles and zees under three inches. The new prices for stock material applies only to the Chicago district.

President Price, of the Cambria Steel company, sent word from Philadelphia that his company would meet the cut on steel bars initiated by the Republic company. He said there was no change in prices in other steel products.

Steelmakers generally are awaiting the result of a meeting called by Chairman Gary, of the United States Steel Corporation, for next Monday, when the price situation will be considered.

### Consolidation Accomplished.

New York, May 27.—The consolidation of the Southern Iron and Steel company and the Alabama Consolidated Coal and Iron company has been practically consummated. The terms of the merger will be made public shortly.

### STABS WIFE AND CHILDREN

Husband Then Attempted to Kill Himself; All Will Die.

Chicago, May 27.—Pasquale Labriola stabbed and probably mortally wounded his wife, Florence, and his two children, Luigi, aged fifteen, and Jennie, thirteen years old, and then attempted to kill himself in their home at 1363 Bismarck place. Doctors said the whole family may die.

Labriola admitted that he wanted to kill his entire family, because he had heard that his wife contemplated divorce proceedings against him.

### Widow Gets \$6280 Damages.

Pottsville, Pa., May 27.—Mrs. Catherine Hipple, of Spring City, has been awarded \$6280 damages by a jury against the Edison Illuminating company of this city. Her husband, George Hipple, was killed by a live wire of the company in 1908.

### Heat Suffering In Chicago.

## SENATOR LORIMER MAY RESIGN

Likely to Take This Step to Avoid Second Probe.

### SENTIMENT AGAINST HIM

It is Generally Believed If He Submits His Title to Seat in Senate to Another Investigation He Will Lose.

Washington, May 27.—There is a widespread belief among senators that Senator William L. Lorimer will try to forestall a second investigation of the charges of corruption in connection with his election by resigning.

Mr. Lorimer is now in Chicago. No one in authority to speak for him, is prepared to say what he will do. But there is a pretty well settled conviction in the senate that if the senator from Illinois submits his title to his seat in the senate to a second test of an investigation he will forfeit the title.

The sentiment in favor of reopening the Lorimer case is now practically unanimous. It is predicted that there will not be a single vote in opposition to ordering a second investigation. A report from the second investigation will not be made to the senate in all probability until it meets in December.

Senator Lorimer's chances of retaining his seat are jeopardized not only by the new evidence that has turned up, but by the fact that the senate personnel has materially changed since the former vote vindicating him was taken. It is almost certain that if a vote were taken today upon the record of the Lorimer case is submitted after the first investigation the senator would be ousted.

It is expected that early next week the second investigation will be formally authorized and the committee named. The indications are that the resolution offered by Senator Martin, of Virginia, slightly modified, will be passed. It will authorize the committee on privileges and elections of the senate to conduct the investigation through a sub-committee of seven, which will be clothed with all powers of the full committee in pursuing its investigation.

After considering the Lorimer resolution for nearly three hours, the subject was laid aside and the senate adjourned until Monday, when final action is expected.

### OCEAN GAMBLERS GET \$14,000

Wealthy Voyagers on Lusitania Prove Easy Picking.

New York, May 27.—There were fat pickings for two professional gamblers who came over on the Lusitania.

One passenger reported that in four days the gamblers picked up \$14,000 and that one of their victims had lost \$1000 in an hour.

"I've lived almost all my life in parts of the west," said this passenger, "where gambling is wide open, but I never saw such quick action at poker. Play usually began in the smoking room at 11 o'clock at night and lasted until 3 or 4 o'clock in the morning. The pigeons could evidently afford their plucking, and as it was none of my business I did not interfere."

The steamship officers keep a sharp lookout for professional gamblers, but occasionally an unknown adventurer makes a smashing coup.

### STORM PLAYS HAVOC

Wrecks Tobacco Factory and Crossed Wires Destroying Knitting Mill.

Durham, N. C., May 27.—A tornado completely wrecked the Venable tobacco factory, which contained 50,000 pounds of stored tobacco.

The tornado also blew down every trolley wire in town; set on fire with crossed cables and totally destroyed the Chatham Hosiery company's knitting mills; burned out half the phone system and wrecked every street car in the city.

Outside communication is interrupted and the flight of the storm is not known. The local damage will perhaps run as high as \$200,000.

### Taft Appoints Chicago Man.

## PENNSY TRAINMEN THREATEN TO STRIKE

Rumors of Trouble Renewed by Pitcairn Meeting.

Pittsburg, Pa., May 27.—Rumors of a strike among the Pennsylvania railroad trainmen were revived at Pitcairn following the meeting of the railroad brotherhoods there.

Committees of trainmen and also of shopmen left Pitcairn, and it was reported that they would seek interviews with the Pennsylvania railroad officers in Pittsburgh.

No official statement in the developments at the meeting could be secured. It was reported that a decision to strike which had been made previously was rescinded at the meeting and that later the strike vote was carried, the purpose being to inaugurate the strike according to the bylaws of the Trainmen's Brotherhood.

The bylaws provide that the trainmen must specify a grievance, and it was said that the railroad company has the privilege of remedying an alleged specified grievance by Sunday, until which time no strike can be in force.

### MILLION BUSHEL WHEAT DEAL

William Lanyon Holds All No. 2 Red Wheat For May Delivery.

St. Louis, Mo., May 27.—William Lanyon, a capitalist, is engineering one of the biggest wheat deals ever attempted here.

More than 1,000,000 bushels of May wheat, valued at nearly \$1,000,000, are involved in the transaction. He is on the bull side, and insists that every bushel of wheat which he has bought on option shall be delivered to him at the Chicago market price, which is 99 cents a bushel.

Lanyon said he expected that his deliveries before the last of May would exceed 1,000,000 bushels, and that he is prepared to pay cash for it all. Lanyon is now credited with holding all the No. 2 red wheat for May delivery that is in sight in St. Louis.

### Find Money Orders In River.

London, May 27.—A boatman picked up in the lower reaches of the Thames river a biscuit box which contained American international unpaid money orders of the value of several hundred pounds sterling. They were issued at Stromsburg, Polk county, Neb., and were payable at Paulpietersburg, Natal, South Africa. Accompanying the money orders was a letter signed "J. H. Rosene," which was addressed to Augusta Rosene, Paulpietersburg.

## RESTORE GRAY HAIR TO NATURAL COLOR

By Common Garden Sage, a Simple Remedy for Dandruff, Falling, Faded, Gray Hair.

The old idea of using sage for darkening the hair is again coming in vogue. Our grandmothers used to have dark, glossy hair at the age of seventy-five, while our mothers have white hair before they are fifty. Our grandmothers used to make a "sage tea" and apply it to their hair. The tea made their hair soft and glossy, and gradually restored the natural color.

One objection to using such a preparation was the trouble of making it, especially as it had to be made every two or three days, on account of souring quickly. This objection has been overcome, and by asking among any first-class druggist for Wyeth's Sage and Sulphur Hair Remedy the public can get a superior preparation of sage, with the admixture of sulphur, another valuable remedy for hair and scalp troubles. Daily use of this preparation will not only quickly restore the color of the hair, but will also stop the hair from falling out and make it grow.

This preparation is offered to the public at fifty cents a bottle, and is recommended and sold by all druggists.

A Missouri farmer we read of the other day put a bright idea into execution. He wanted an open shed in the poles, so he built a framework of poles giving a skeleton about 20 by 50 feet. Then when he thrashed his small grain he arranged the sack blower so as to shoot the straw on to the frame.

If the rainfall continues short it will be a part of wisdom to get the corn ground in shape with the use of the drag, this provided that the plow land is sufficiently mellow. This will drive a dust mulch and will enable the soil to retain much moisture that would be lost were the ground cut deeply with a disk.

In turning the dairy cow on to pasture it is well to keep in mind the fact that while the new grass is juicy and sweet it has little body and a low percent of food nutrients. For this reason the grass ration should be supplemented, for a time at least, with silage and clover or alfalfa and some grain. In the case of heavy milkers it is well to feed some grain throughout the pasture season.

## DR. GRANT GUILTY AND SUSPENDED

Assembly's Verdict Opens Way For Reinstatement.

HE REAFFIRMS HIS FAITH

Minister Admits Some of His Writings May Be Misconstrued—Matter Goes Back to His Own Presbytery.

Atlantic City, N. J., May 27.—(Rev. Dr. William D. Grant, of Northumberland, Pa., who was tried on heresy charges before the permanent judicial commission of the 123d general assembly of the Presbyterian church, was found to have "taught doctrines contrary to the word of God as contained in the Bible and the Presbyterian Confession of Faith," by the report of the commission, presented to the assembly.

The commission held that Dr. Grant was guilty of an offense, under the rules of the Presbyterian Book of Discipline and recommended that he be suspended from exercising the functions of a minister until such time as he could "convince his own presbytery, that of Northumberland, that he has renounced the errors he has been found to hold and to satisfy the presbytery of his purpose to no longer teach them."

A motion to adopt the report and confirm the judgment of the commission was put to a vote without debate. It was carried overwhelmingly, only a few scattered "noes" coming from widely separated sections of the assembly hall on the steel pier.

Though this adverse decision was at first a crushing blow to friends of Dr. Grant, the judgment which leaves it up to his own presbytery to reinstate him, that body having already acquitted him once and being obviously favorable to him, somewhat took the sting out of the verdict.

It was pointed out that there was nothing to prevent Dr. Grant from appealing to his presbytery at its next meeting and by making a statement recanting any views that might be taken to attack the basic doctrines of the church and promising never to offend again to be reinstated within a short time. When it became clear that the judicial commission had decided against Dr. Grant, his friends feared an indefinite suspension and the final verdict was somewhat of a relief.

Curiously enough the word "heresy" was never used in the report of the commission, either in the summing up or the final judgment.

Dr. Grant was present when the report of the commission was read. Before a vote was called for, his chief counsel, Dr. J. Gray Bolton, of Philadelphia, asked to be allowed to read a statement for Dr. Grant. The statement, which was in the nature of an affirmation of faith in the great doctrines of the church, follows:

"Few men have suffered as much for their beloved church as I have suffered for the church of my fathers. I reverently and lovingly bow to its decision. I do now affirm, as I have many times affirmed during these proceedings, my unqualified faith in my blessed Lord and Saviour Jesus Christ, in his deity, virgin birth, resurrection and mediatorial work, and in the scriptures of the Old and New Testaments, as the infallible rule of faith and life. I have never knowingly taught anything contrary to the above declarations.

"During this meeting of the assembly I have met some of the most conspicuous young workers and speakers in the church, who are not ordained ministers, one of whom said in my hearing that he had left the seminary and refused ordination for fear of such a day as I am now experiencing. Some of the statements I have made in my articles, I can now see, are subject to misconception, but if I cannot preach the great doctrines of grace, as given us in the New Testament, in the Presbyterian church, I ought to leave her ministry; but I trust it shall be my privilege and joy to continue to proclaim those doctrines as long as God shall give me strength to do so."

Dr. Grant, severely shaken but composed in bearing, left for his home. He refused to make any further statement, but appeared to have found comfort in the way his friends stuck to him and their assurances that it would be only a few months before he was restored to full standing as a minister.

WON'T WED BUTT, SHE SAYS

Mrs. Laughlin, President's Sister-in-Law, Denies Reported Engagement.

New York, May 27.—"Why, I hardly know Major Butt, and I have not seen him for a year," said Mrs. Thomas Laughlin, President Taft's sister-in-law, when she arrived from Europe on the steamer Cleveland.

Mrs. Laughlin denied that she was engaged to the president's aide, a rumor which Major Butt already had said was without foundation.

Revolution Cost \$20,000,000.

New Orleans, May 27.—The revolution in Mexico will cost approximately \$20,000,000, according to Policarpe Tionella, former president of Honduras, who recently arrived in New Orleans from Mexico City. He is not optimistic as to Mexico's future.

## FINED \$600 FOR KILLING MAN

J. W. Shields Convicted of Second Degree Manslaughter.

Plymouth, N. H., May 27.—J. Walter Shields, a former Philadelphian, was convicted of manslaughter in the second degree in the superior court and was sentenced to pay a fine of \$600 and the costs of the prosecution.

The money was immediately forthcoming, and within a short time Mr. Shields walked out of the court, a free man. He left the courtroom with his brothers-in-law, who have been his constant companions throughout the trial.

Shields was placed on trial before Judge Pike on a charge of manslaughter for the killing of "Christie" Kenney, a woodsman.

## TO ARM SCHOOLBOYS

Plan to Furnish Them With Guns and Ammunition.

Washington, May 27.—A resolution was introduced by Representative Pepper, of Iowa, authorizing the secretary of war to issue government arms and ammunition to high school pupils for military instruction and practice.

All schools receiving the supplies from the government are required to give bond double the value of the property until it is returned. The committee on military affairs will debate the purpose of the resolution.

## RECIPROCITY IN BATTLE FOR LIFE

Dangers From Many Sources Menace Taft's Bill.

Washington, May 27.—Dangers from so many sources now threaten the Canadian reciprocity agreement that its supporters are becoming alarmed.

This does not mean that the administration is in despair about the passage of the bill, but it is realized that the pressure to defeat it is growing and that strenuous measures by the president will be necessary to force it through.

With the finance committee dragging slowly along and showing no disposition to report the bill for some days, with Senator Root insisting on its amendment to the paper and wood pulp provisions, which would seriously cripple the measure; with Senator Lodge wavering and showing signs of being secretly hostile to the agreement; with Senators LaFollette and Cummins and most of the senate progressives unfriendly; with Senator Kenyon, the new man from Iowa—who was relied on to support the bill—uncertain and regarded as not unlikely to vote against it; and with the standpat high tariff leaders in the senate uncompromisingly opposed to reciprocity in any form, it becomes more and more plain that the difficulties ahead are grave.

That the high protected interests of the country are making a remarkable organized fight against the agreement is clear. They are cleverly getting the farmers of the country—at least the grange officers—to make the fight for them, while they are keeping more or less under cover.

President Taft has used the big stick at times since March 4, 1909, to further his favorite measures, and the signs are that he will use it with greater force than ever in seeking to muster votes for reciprocity.

## WAS SOLD, SAYS GIRL WIFE

Fifteen-Year-Old Bride Says Husband Bought Her For \$30 and Dress.

Philadelphia, May 27.—David Habbit, twenty-six years old, whose fifteen-year-old wife accused him of treating her cruelly and refusing to support her, was held under \$400 bail for court when arraigned before Magistrate Scott.

The young wife declared that she was sold to Habbit for \$30 and a silk dress by her father and stepmother. She asserted that her father gave her the money after the wedding, but she never received the dress.

In her testimony she said Habbit is a Syrian and sells lace on the streets for a living. Often he forced her to peddle the wares for him, she said, and tried to make her live a life of shame. The girl said she was married three days after her fifteenth birthday last February.

# "1892" Pure Spun Aluminum Ware

15 Days at Our Risk

Buy any piece of this ware from your dealer—try it fifteen days. If in that time you find that all the claims we make for it are not true, and if it is not just as represented, take it back and get your money.

Here at last is the ideal kitchen and cooking utensil—"The Ware That Wears"—made from Pure Spun Aluminum, and guaranteed by the makers to last 25 years with average usage. "Spun" Aluminum, mind you, not cast Aluminum, which will sometimes crack and scale. Spun Aluminum Ware will never crack, peel, scale or break.

Enamel ware is iron coated with colored glass. Iron expands with heat. Colored glass does not, but chips off into the food with dangerous results to those who eat it.

"1892" Pure Aluminum Ware Saves Doctors' Bills.

It enables you to bake bread, pies, pancakes, etc., without grease, which is the great cause of dyspepsia and indigestion. Aluminum gridles require no grease; hence are smokeless and odorless.

"1892" Pure Aluminum Ware Will Not Scorch or Burn

—is easily cleaned, will not rust or corrode. Handsome in appearance. Looks like silver, but weighs only about one-fourth as much, and is light and convenient to handle.

## HOG WISDOM.

Get the young pigs out on the ground as soon as the weather will permit.

Nothing will retard the growth or cripple a young pig so quickly as to keep it on a board floor.

Sunshine is good for the pigs. Keep them in it.

Keep the sleeping quarters and feeding places clean and thoroughly disinfected.

The swill or feed barrel should be well cleaned and scalded every week at least.

The hogs should not be allowed to become lousy.

Spray with some good disinfectant and grease all over, and don't neglect the inside of the ears.

One of the most interesting of the migratory birds is the white throated sparrow, which in size and general appearance resembles the song sparrow. It may be distinguished from the latter, however, by the pronounced black and white striped cap which it wears and a white throat from which mark it takes its name. The song of this sparrow is a high pitched sweet and very clear whistle, which some one has interpreted "pea-boddy-bird," the last syllable or two being pitched a trifle lower than the rest. During their migration the white throated sparrows are often seen in flocks of a dozen or more. They build their nests on the ground on the border of woodland or swamp, and they are usually made of grass and leaves.

Experience of experiment station and orchard men covering several years proves very conclusively that a big majority—about 80 per cent—of the worms that enter apples do so at the blossom end. The codling moth lays its eggs in the calyx cup within a period of about ten days after the petals fall. It is during this interval that the tree should be given a thorough spraying with an arsenate of lead solution at the rate of about two pounds to fifty gallons of water, the object being to deposit a little of the poison in each one of these calyx cups. If one is spraying to check apple scab or other fungous pests with the Bordeaux solution or summer lime sulphur mixture the arsenate may be added to the same volume of these. But whether applied in water or with them the liquid should be given frequent stirring to insure an even distribution of the poison.

An egg sucking dog can be cured of the habit by giving the offender an egg doped with ipecac. This is done by making a small hole in one end, removing a part of the white and putting in the place of it half a teaspoonful of the powdered drug. This should be mixed with contents of the egg by means of a small stick or wire, the egg wiped off, hole pasted over with a bit of muslin and left where the "sucker" can get at it.

The gracious companionship of a beautiful Easter lily has revealed an interesting fact in connection with its blossoming habit. We have noticed that of the eight or ten blossoms on this two stalk plant those provided with anthers (pollen pods) are uniformly more vigorous and longer lived than those blossoms having the filaments only. The same principle seems also to hold in the case of some other plants and to domestic animals under certain conditions.

Keep it Free From Dandruff and it Will Grow Lovely.

Being the best hair dressing for men and women, Parisian Sage is also the best for children. Try it once and see how clean and healthy it keeps the scalp. "My daughter used Parisian Sage on her children's hair, and it is as good as you recommend it to be."—Hannah Anderson, 1021 Divine St., Columbia, S.C.

Here is what a North Dakota woman says:

"Parisian Sage certainly has done my hair a lot of good, and will highly recommend it as a very good tonic for the hair. Have used various kinds of tonics and have found Parisian Sage the best. I have my head free from dandruff now, and it has a healthy luster and has an even color. It used to be streaky. Many of my friends are using it and they speak highly of it."—Mrs. Anna Rooney, 101 Second St., N. Fargo, N. D.

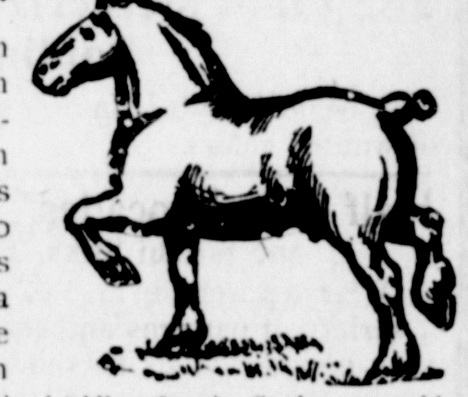

Always bear in mind that there is nothing for the hair that can compare with Parisian Sage. There are many imitations but none of them are guaranteed to eradicate dandruff, stop falling hair and itching scalp in two weeks, or money back.

A large bottle costs 50 cents at People's Drug Store and druggists everywhere. The girl with the Auburn hair is on every bottle.
